PROGRAMMING SKILL

Languages: JavaScript, TypeScript
Technologise: ReactJS, Redux, Node.js, Express.js, MongoDB, Cloudinary, Css, Sass, Tailwind, Bootstrap, Framer Motion, Socket.io
Tools/Version Control: Git, Github, Figma
Payment Processing: Stripe
Deployment/Hosting: Vercel, Render

SUMMARY

I am a self taught frontend developer. Started my journey of coding around the mid of 2021 and enjoying the ride so far. Favorite language Javascript. Favorite stack MERN (Node, React and Mongo, Express)

PROJECTS

E-commerce
Tech-Stack: React, Node, Mongo, Express, Firebase, SASS   Code || Live Site

Developed a robust e-commerce platform integrating user authentication, product management, and secure payments through Stripe. Designed with an intuitive interface, it allows users to seamlessly add items to the cart, search, and filter products. Additionally, an exclusive admin dashboard enhances efficiency in product and order management, ensuring a streamlined experience for both customers and administrators, with Firebase Authentication for added user security.

Social-media
Tech-Stack: React, Node, Mongo, Express, Cloudinary, SASS   Code || Upload

In addition to essential features like authentication, commenting, photo upload, and user profiles, our social media platform now allows users to express their opinions through both likes and dislikes. This update enhances user engagement and fosters a more dynamic and interactive community experience.

Drawing
Tech-Stack: React, Tailwind   Code || Live Site

This React application is a simple drawing tool allowing users to create and manipulate various shapes like lines, rectangles, and text. It features tools for drawing, selecting, resizing, and undo/redo functionality. Users can also save and load drawings using local storage.

Soft Skills

1. Great team player
2. Great communication skills
3. Quick learner
4. Time Management
5. Professionalism

EDUCATION

HS, Darrang college, Tezpur   **Assam,India**
Aug 2018 - Apr 2020
